CCPS (Center for Chemical Process Safety)

**Guidelines for Pressure Relief and Effluent Handling Systems** CCPS (Center for Chemical Process Safety)

Providing in-depth guidance on how to design and rate emergency pressure relief systems, *Guidelines for Pressure Relief and Effluent Handling Systems* incorporates the current best designs from the Design Institute for Emergency Relief Systems as well as American Petroleum Institute (API) standards. Presenting a methodology that helps properly size all the components in a pressure relief system, the book includes a CD with the CCFLOW suite of design tools and the new Superchems for DIERS Lite software, making this an essential resource for engineers designing chemical plants, refineries, and similar facilities.
