Michael Moore Investigation: Search for the Facts Therlee Gipson

Introduction I compiled this book "Michael Moore Investigation" exposing faults in the United States to improve the condition of the average American Citizen. Author, filmmaker, and political activist Michael Moore has developed a trademark style of tackling major issues with a sharp sense of humor while maintaining a regular-guy attitude, an approach that has helped him secure a reputation as both a razor-sharp humorist and one of America's most fearless Political commentators. Michael Moore was born in 1954 in Davison, MI, a suburb of Flint, then home to one of General Motors' biggest manufacturing plants, where Moore's father and grandfather both worked. Michael won a merit badge as an Eagle Scout by creating a slide show exposing environmentally unfriendly businesses in Flint, and in 1972, when 18-year-olds were granted the Right to vote, he ran for a seat on the Flint School Board, soon becoming one of the youngest people in the United States to win an election for public office. While Moore was briefly a student at University of Michigan-Flint, he dropped out to focus on activism, and began a Career as a journalist by working for the Flint Voice, an alternative weekly newspaper. In time, Moore became the editor, and under his leadership the paper expanded into the Michigan Voice, one of the most respected alternative political publications in the Midwest. Moore's success at the Michigan Voice eventually led to a job offer from Mother Jones magazine, where he became editor in 1986. Moore believed that Mother Jones, a leftist Political Journal based in San Francisco, had lost its bite, and it was his goal to give the magazine an edgy, populist voice. He often butted heads, however, with Mother Jones' publishers and management, and after less than a year he was fired, reportedly for refusing to run an article critical of the Sandinista Rebels in Nicaragua that Moore believed was both inflammatory and inaccurate. After a brief spell working with a Ralph Nader Organization, Moore got the idea to make a film about his old hometown of Flint and how the local economy had collapsed in the wake of the closure of General Motors' Flint plants despite their continued profitability. He became successful by producing his own Documentaries, and the rest is history. (*)
