Speedy Graphito is a French graffiti artist whose paintings and street art murals can be found all over the world. His work turns a critical eye on consumer society by exploring pop culture images and icons. Inspired by cartoons, video games and American pop culture of the 1950s, Speedy Graphito has established a unique street art style that is brought together for the first time in this book. His brash and rebellious paintings jump from each page and offer clever insight and food for thought on themes spanning from art history to modern technology.
