Fab Five for Trigonometry Level Nineteen: Law of Sines Kathryn Gniadek

Our world does not only contain right triangles especially in the world of engineering, astronomy, navigation, and surveying. Problems in these fields as well as in the field of Forestry where the location of potentially deadly fires is a necessity are solved using the Law of Sines.

In Level Nineteen, you will derive the Law of Sines and use it to find all the sides and angles for an oblique triangle. You will find an area formula for an oblique triangle using the sine function and you will solve applied problems using the Law of Sines.
