Contemporary Morocco: State, Politics and Society under Mohammed VI (Routledge Studies in Middle Eastern Politics)

Discussions of the unsettled political and social landscapes in the Middle East and North Africa frequently point to Morocco as an exception. An Arab League member-state, Morocco enjoys a favorable image in the West, seemingly combining a healthy and balanced mix of tradition and modernity, authenticity with openness to foreign cultures, political stability and evolution towards greater pluralism, and a marked improvement in the legal and social status of women.

This book offers a comprehensive and detailed scholarly examination of Morocco's political, social and cultural evolution under King Mohammed VI. Contributions from an international lineup of experts on Moroccan history, politics, economy, society and culture explain the tension and dynamics between the state authorities and competing social actors, and highlight the durability of the monarchical institution while also pointing to the continued challenges it faces from a variety of directions. The analysis touches on a number of issues, notably youth, and women and religious reform to investigate how the country has become significantly more open and less repressive, and how any unrest Morocco experienced during the recent 'Arab Spring' has been controlled.

Employing various disciplines and theoretical perspectives, the result is an analytically rich portrayal which sheds important light on the country's prospects and the challenges it confronts in an era of steadily accelerating globalization. As such, it will be of interest to students and scholars who focus on modern Morocco, North Africa and the Middle East, as well as researchers in the fields of Comparative Politics and International Relations.
