**Building Production Management Techniques: An Introduction through a Systems Approach (Chartered Institute of Building)** David R. Moore, Douglas J. Hague

*Building Production Management Techniques* provides an innovative approach to dealing with the universal problems of time, cost and quality of construction projects.

The book provides an introduction to a number of management techniques that can be applied to the problems of production presented by the diverse, heavy, large and geographically distributed products typical of construction everywhere. As well as recognised and tried and tested management techniques, the authors have introduced a number of techniques which may not have been considered by the construction industry to date.
