A Path of Ashes (The Path of Ashes) (Volume 1) Brian Parker

Evil doesn't become extinct, it evolves. Our world is a violent place. Murder, terrorism, racism and social inequality, these are some of the forces that attempt to destroy our society while the State is forced to increase its response to these actions. Our own annihilation is barely held at bay by the belief that we've somehow evolved beyond our ancestors' base desires.

From this cesspool of emotions emerges a madman, intent on leading the world into anarchy. When his group of computer hackers infiltrate the Department of Defense network, they initiate a nuclear war that will irrevocably alter our world.

Aeric Gaines and his roommate Tyler Nordgren survive the devastation of the war, only to find that the quaint, politically correct world where they'd been raised was a lie. All humans have basic needs such as food, water and shelter...and we haven't forgotten how to fight for what we desire.

A Path of Ashes is the first book in an exciting new series about life in post-apocalyptic America, a nation devoid of leadership, electricity and human rights. The world as we know it may have burned, but humanity found a way to survive and this is their story.
