This book's mandate is simple. To tell you a simple truth:

"Whatever your present difficulty, your brain can find a way out of it."

Whatever your current difficulty, there is a science to exactly how you ended up where you are. If you've ever wondered why... • dating and relationship advisors are so fixated on 'make-overs' (your on-line profile, your wardrobe, your face, your conversation skills)? • prosperity gurus are so bent on you 'fixing' yourself? • some of the most beautiful people never find love and some of the most intelligent ones never make good money? • people with disadvantages identical to yours are so hugely successful? • and finally, why 'idiots' do so well? ...you need to read this book. There is a pattern to your inability to pay bills, live where you want to, find love or use your talents to your benefit. A mesmerising storyteller has pulled a pretty screen across the entire mess, shielding it from view. It is my hope that this book pushes that curtain so far back that you are never again pulled by anyone's strings but your own.
