Pacemaker Basic Math is a comprehensive program that provides a solid, well-balanced approach to teaching math content and building math skills in whole numbers, basic arithmetic operations, and mastery of simple geometry and algebra as it prepares students for the rigors of difficult standards and proficiency tests.

This program provides educators with tools to meet the needs of diverse classrooms, keep learning up-to-date and relevant, and create supportive learning environments for a range of learning styles. Correlated to the NCTM standards, the materials and techniques used in the program are accessible, predictable, age-appropriate, and relevant as it bridges the gap between varied abilities of students and the ladder to success in algebra.

Visual learners and struggling readers are supported with photographs, charts, graphs, and illustrations, and high-interest projects gear up students for lessons.
