Stock Scenery Construction Handbook

Bill Raoul, Mike Monsos

Stock Scenery Construction Handbook Bill Raoul, Mike Monsos

Widely adopted as a college textbook, "Stock Scenery Construction Handbook" is one of the easiest to use, and most complete manuals on scenery construction. It has over 200 full-page drawings showing construction techniques for every conceivable kind of stock scenery piece, from flats (plain ones, door units, hardwall, etc.), to platforms and step units (including two kinds of parallel platforms and even folding-brace stairs), to all kinds of soft goods like curtains and drops. The second edition added a chapter on paint.

This third edition includes updates throughout the book by Mike Monsos, professor of Scenic Design/Technology and Bill Raoul's colleague at University of Montana.
