Rule of Law Dynamics: In an Era of International and Transnational Governance

This volume explores the various strategies, mechanisms, and processes that influence rule of law dynamics across borders and the national/international divide, illuminating the diverse paths of influence. It shows to what extent, and how, rule of law dynamics have changed in recent years, especially at the transnational and international levels of government. To explore these interactive dynamics, the volume adopts an interdisciplinary approach, bringing together the normative perspective of law with the analytical perspective of social sciences. The volume contributes to several fields, including studies of rule of law, law and development, and good governance; democratization; globalization studies; neo-institutionalism and judicial studies; international law, transnational governance, and the emerging literature on judicial reforms in authoritarian regimes; and comparative law (Islamic, African, Asian, Latin American legal systems).
