Valuing Early Stage and Venture Backed Companies Neil J. Beaton

Find out what your early stage business is really worth--and what you can do to increase its value even more

One of the most misconstrued concepts in business today, valuation has also rapidly become one of the most important for business owners in today's unpredictable financial atmosphere.

An experiential and practical guide drawn from author and valuation expert Neil Beaton's fifteen years of focused start-up work, "Valuing" "Early Stage and Venture-Backed Companies" equips you with a solid foundation of the ins and outs of early stage and venture-backed valuations--no matter what your field.

This step-by-step guide offers contributions from top valuation practitioners, walking you through:

New techniques for applying options methods

The pros and cons of the option pricing model

Early stage preferred stock rights

Applicable discounts for early stage companies

New procedures for implementing the probability-weighted expected returns method

Valuation theory, the consensus view on application, and the tools to apply them

The popular and widely used AICPA Practice Aid, Valuation of Privately-Held Company Equity Securities Issued as Compensation

"Valuing Early Stage and Venture-Backed Companies" replaces bewildering computations with technical expertise to help you figure out what your business is really worth, and how you can increase that value starting today.
