## **Bug Light (Volume 3)** John H. Sibley

George Washington Carver; born as a slave in the middle of the civil war; rose to become one of the most famous scientists in the early 20th Century. His peers were Henry Ford, Albert Einstein, Tesla, Westinghouse, Booker t. Washington and Thomas Edison. Bug Light is about Dr. Carver's "lost Notebooks" --that explained his 'organic light' theory that were confiscated by the U.S. government upon his death despite outrage from the Carver Foundation. The fierce battle over industrial light by Edison and Tesla(AC/DC) would had included Dr. Carver's 'organic light' theory if he could had gotten the industrial backing. " Haunting, powerful, mysterious---Bug Light is a must-read-peek into the life of a scientific genius." Maria
