Prelude to World War Three: The Rise of the Islamic Republic and the Rebirth of America (World War Three Series) (Volume 1) James Rosone, Miranda Watson

By the 2020s, America was no longer a world Superpower. The military had been cut to a barebones level, and while the U.S. was focused internally, the door opened for new powers to emerge on the world stage. In the wake of this power vacuum, China and Russia began to flex their military muscles and expand their dominance in the world. The border of India and Pakistan had long been one of the most precarious ticking time bombs waiting to explode, and when a scheme to agitate the tensions in that region is successful, it opened the door for powerful men to begin consolidating authority and start building an Islamic Caliphate. With Europe also weakened by economic decline, the United States was in serious danger from this new threat. In these hazardous times, America was in need of a leader. Henry Stein, a new kind of leader, built a new political party that is neither Republican nor Democrat to lead the charge to bring the country back from the brink. His unconventional style was just what the U.S. needed in order to deal with the changing world balance of power and a worldwide Great Depression. As conflicts near and far began to plague the planet, would President Stein be able to prevent a third world war?
