## **Chess Strategy #10 - Top Grandmaster Strategies (Strategic Chess Series) Mikhail Cugovsky**

How good are you at spotting minor positional inaccuracies?

When Grandmasters play other Grandmasters they don't expect to be able to exploit glaring positional faults or tactical blunders (although they do sometimes happen)!

They'll scan the unfolding positions for minor positional errors such as the ones we examine in this book.

As well as the featured five games there are six positions in the 'Match Practice' section where you can test your own chess skills.

Enjoy the book and use the material to help you win your next games.
