## **I and You** Beverly Garside

It is the year 2098. Sara Storm has just come of age in a republic founded upon the objectivist principles of Ayn Rand - selfishness, minimal government, and laissez faire capitalism. It is a society in which the collectivist pronoun "we" has been replaced with the ideologically correct "I and you." A true believer in the ideals of her nation, Sara launches her military career with zeal and great dreams for her future. But the world outside the classroom fails to live up to the one she has been taught to expect. Real people fail to behave like the heroes in Rand's books or in the science fiction stories she loves. She notices cracks deepening in the nation that bills itself as the beacon for all mankind. Winds of change start to howl through the "skyscraper society" of her republic and strange sounds begin to emanate from the Earth itself. Suddenly her world, her career, and her own dreams no longer fit into the narrow confines of Rand's ideology. Neither does love.

### From reader reviews:

#### **Doug Herring:**

Book is to be different per grade. Book for children until eventually adult are different content. As we know that book is very important usually. The book I and You has been making you to know about other understanding and of course you can take more information. It doesn't matter what advantages for you. The guide I and You is not only giving you considerably more new information but also to become your friend when you truly feel bored. You can spend your own personal spend time to read your reserve. Try to make relationship with the book I and You. You never sense lose out for everything in case you read some books.

#### **Bill Dildy:**

Do you like reading a e-book? Confuse to looking for your chosen book? Or your book ended up being rare? Why so many question for the book? But just about any people feel that they enjoy for reading. Some people likes looking at, not only science book but in addition novel and I and You as well as others sources were given knowledge for you. After you know how the truly great a book, you feel would like to read more and more. Science guide was created for teacher or even students especially. Those ebooks are helping them to add their knowledge. In some other case, beside science book, any other book likes I and You to make your spare time considerably more colorful. Many types of book like here.

#### **Keith Kuhlman:**

Publication is one of source of information. We can add our information from it. Not only for students but in addition native or citizen require book to know the up-date information of year for you to year. As we know those textbooks have many advantages. Beside most of us add our knowledge, can also bring us to around the world. From the book I and You we can consider more advantage. Don't someone to be creative people? To be creative person must love to read a book. Simply choose the best book that ideal with your aim. Don't end up being doubt to change your life with that book I and You. You can more pleasing than now.

#### **Phyllis Walters:**

Reading a publication make you to get more knowledge from the jawhorse. You can take knowledge and information coming from a book. Book is prepared or printed or illustrated from each source in which filled update of news. On this modern era like today, many ways to get information are available for you. From media social just like newspaper, magazines, science publication, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Are you ready to spend your spare time to open your book? Or just trying to find the I and You when you desired it?
