What the mind forgets, the heart remembers.

RedZone, Book 1

Alone in a train station bathroom, Sophia Hernandez has no memory of who she is or how she got there. All she's certain of are three things: her college ID is a lie, bad people are coming for her, and no one can be trusted.

The only clue to her past is the fellow student who finds her. Although Sophia's gut tells her Kyle is lying when he claims he can't help her, his touch makes her heart race. Is it because of a red-hot natural attraction, or a missing memory of something far more dangerous?

As two mysterious, menacing men chase them from the station, Sophia's memories return in frustrating fragments. So do deadly skills she didn't know she had. In the next forty-eight hours, a loved one's life will be on the line as she sifts through a mounting tangle of secrets and lies.

Including the most heart-wrenching secret of all. Not only isn't she a normal college student, she isn't even a normal human.

Warning: Contains one girl who is more than she seems, one boy who knows more than he's telling, and enough twists to give you whiplash. Expect explosions of all kinds.

"Action, intrigue, and a determined, daring heroine: Revive is the perfect read for sci-fi, thriller, and romance fans alike." -Clara Kensie, author of *Run To You*
