Atmospheric Research From Different Perspectives: Bridging the Gap Between Natural and Social Sciences (The Reacting Atmosphere)

Atmospheric Research From Different Perspectives: Bridging the Gap Between Natural and Social Sciences (The Reacting Atmosphere)

The book, the first in a series arising from the research network *The Reacting Atmosphere*, explains and outlines the aims of this ambitious cross-disciplinary effort. The central topic is air quality and climate change, and the methods of atmospheric physics and chemistry, applied mathematics and socio-economic science are used to advance the understanding of the role of the atmosphere in global change.
