FACT: Two Colonies Inhabit the Atlantic & Pacific Oceans This non fiction book solves some of our greatest mysteries. Discover the blueprint of our past and of our future: Atlantis / The Bermuda Triangle / The builders of the Egyptian pyramids / The superior human, Jesus / Our technological future / The physics of space travel / Our political future / Robots in an advanced society / Agricultural science of the future / Animal intelligence / The shaping of mankind's development. Atlantis - which represents a superior race of humans that originated from another planet, and which established us on this planet - presently exists on two fronts: a mother ship settled in the Atlantic Ocean, and a growing colony settled in the Pacific Ocean. These superior humans have been here with us, closeted, throughout our entire history, with an end in mind, of which we will learn. This book is an eyewitness account of the existence of Atlantis, based on the testimony of Jack Lord. While his body lay in a coma, Jack Lord had an out-of-body experience. During that encounter, he was able to see the reality that lies beyond the physical world. What will be apparent when you read this book is that no human is so imaginative that he can make up a work of this kind. What will also be apparent is how inadequate we have been in depicting the future. This book is a part of a once-ever global event.
