Radiation Dose from Adult and Pediatric Multidetector Computed Tomography (Medical Radiology)

Radiation Dose from Adult and Pediatric Multidetector Computed Tomography (Medical Radiology)

This book considers in depth all the factors that influence the radiation dose and the risk associated with MDCT in children and adults. Only a small proportion of referring clinicians, radiologists, and technologists are aware of both the radiation risks and their underlying mechanisms. The book proposes detailed guidelines for optimization of the radiation dose when using MDCT. It is written by experts of international standing.
