Life in the frozen wastelands of Texas is anything but easy, but for Clay Whitaker there is always more on the line than mere survival. Followed by months of heightened seismic activity worldwide, Yellowstone, along with two other Super Volcanoes, exploded with a tremendous fury, releasing unmeasurable quantities of ash into the atmosphere. Coastlines were changed. New canyons were formed. Temperatures plummeted, dragging economies down, too. With no real way to sustain order, governments around the world began to fold, societies collapsed. It's been seven years since the ash rained down from the sky. Populations are thinning. Food is scarce. Despair overwhelming. Clay and his sister Megan have taken a handful of orphaned children into their home—a home soaring 16 stories into the sky. Providing for his adopted family is a 24/7 job for Clay. And with roughly six short months a year to gather enough food and supplies to last the long, brutal winter, Clay is forced to spend much of his time away from home—scavenging, hunting, and bartering. Despite the vicious, unforgiving world he lives in, Clay has grown accustomed to his new life. That is, until he meets Kelsey Lambert. Now, with winter rolling in earlier than ever, Clay must swiftly adapt to the changes in his life to ensure the safety of those he cares about.
