Being Human: An Entheological Guide to God, Evolution, and the Fractal, Energetic Nature of Reality Dr. Martin W. Ball Ph.D.

Simple, concise, and radical, Being Human outlines the Entheological Paradigm, a Grand Unified Theory of reality that accounts for not only all of the physical world, but personal consciousness, life, and God as well. This guide explains the nature of God as a Fractal Energy Being and how this One Being works to create all of physical reality and is also embodied in all living beings through the process of evolution. To be Human is to be God in a body. This guide not only explains how this is accomplished through energetic evolution, but also explains how individuals can use entheogenic medicines to learn how to own their personal energy and take responsibility for themselves as unique manifestations and embodiments of God. Free of fluff, mystification, metaphysics, and all religious dogma and illusion, Being Human is the simple, easy-to-follow guide to a fulfilling life in reality that humanity has been waiting for. This is the book that can change the world, and it all begins with YOU! Welcome, at long last, to Reality!
