**THE MAGIC ZONE: SKETCHES OF THE NOBEL LAUREATES (Scripta Humanistica)** Ralph Gunther

The present volume introduces the reader to a wide range of information about the men and women who won Nobel Prizes. Excerpts from their life histories, from their achievements in the sciences and arts, are interspersed with an array of anecdotes and chance occurrences which make for highly entertaining reading. Between 1901 and 2002, more than seven hundred people were awarded Nobel Prizes. Covering a time span of 102 years, the book contains more than two hundred well-researched sketches - and the notion that if history is the essence of many biographies, the biographies of the Nobel laureates alone can throw a prominent light on the twentieth century and the beginning of the twenty-first.

As a university student exactly feel bored in order to reading. If their teacher questioned them to go to the library or make summary for some reserve, they are complained. Just very little students that has reading's heart and soul or real their passion. They just do what the instructor want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that studying is not important, boring as

well as can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we would like.
