Over 2600 copies in circulation prior to Amazon. Whispering Whale is an epic novel charting the destruction the eventual cleansing of the planet with a huge reduction in the population of the human species. It takes the reader into a post-apocalyptic world of survival and hardships. However, it all has not been without reason and there comes a rebirth. It is a strongly spiritual story with the characters discovering themselves and the whale with a gift to bestow. It is through the ordeals, both emotional and physical, of Justin and Nicole, that the reader discovers the intentions of the whale and how the interactions will result in a new humankind. The literary style is compelling, full of natural and physical observations and descriptions. The detail of the earth's evolution is stunning and the intensity graphic. The asteroid encounter with the years is authentic and chillingly rebel and in today's climate of scientific awareness. Commentary: a storyteller, I got the book a few days after hurricane Sandy.
